Each year SunTrust Mortgage, Inc. reviews your escrow account to determine your new monthly escrow payment which is included in your total monthly mortgage payment. Money is collected and held in your escrow account to pay taxes and insurance on your behalf.

Effective 09/01/2016, your new monthly mortgage payment will be: **\$357.17**

	Current Monthly Payment	New Monthly Payment
Principal & Interest	\$256.61	\$256.61
Escrow	\$87.52	\$94.97
Escrow Shortage		\$5.59
Total Payment	\$344.13	\$357.17

Note - If you choose to pay your escrow shortage in full using the coupon below, your new monthly mortgage payment will be \$351.58. If your payment is issued through our SurePay ACH service then the amount of your draft will automatically be updated. If your payment is issued by a third party or if you make your payment through a bill pay service please be sure that your new monthly mortgage payment amount is updated with the service provider.

Your New Escrow Amount

	Projected Annual Payment	New Monthly Escrow Amount
Taxes	\$397.71	\$33.14
Insurance	\$742.00	\$61.83
Total	\$1,139.71	\$94.97

To project your annual escrow payments for the coming year, we use the last tax and insurance bills received, or information provided by your settlement agent or local tax authority. This annual projection when divided by 12 months equals your New Monthly Escrow Amount.

Escrow Lowest Balance

	Lowest Balance Amount
Projected Escrow Lowest Balance for the coming year	\$55.72
Required Escrow Lowest Balance*	\$189.94
This difference created a shortage in your escrow account	\$134.22
The difference shown above divided by 24 months is \$5.59.	

* The required escrow lowest balance (cushion) is explained on page 2.

Shortage Amount **\$134.22**

E - Indicates the activity has not yet occurred but is estimated to occur as shown

* - Indicates a difference between actual activity and projected activity either in the amount or the date

Your monthly mortgage payment for the prior period was \$344.13, of which \$87.52 was applied to escrow. Last year, we anticipated making payments from your account equaling \$1,050.26.

Under Federal law your minimum monthly balance should not have exceeded 1/6 (also equal to no more than 2 months) of the total projected payments for real estate taxes and hazard insurance from the account, unless your mortgage contract or state law specifies a lower amount. Your required minimum monthly balance for the prior period was \$175.04.

Projected & Actual Payment Differences

Differences between projected and actual payments to and from your escrow account may create a shortage or surplus in your account. The most common reasons for a difference between your projected escrow lowest balance and your required escrow lowest balance are tax rate and/or assessed value changes, hazard insurance premium or coverage changes. Additional factors are listed below:

PAYMENTS	REAL ESTATE TAXES	HAZARD INSURANCE
<ul style="list-style-type: none"> Monthly payment(s) received were less than or greater than expected Previous overage was returned to escrow Previous shortage not paid entirely 	<ul style="list-style-type: none"> Exemption status lost or changed Supplemental/Delinquent tax paid Tax installment not paid Tax refund received New tax escrow requirement paid 	<ul style="list-style-type: none"> Premium paid or not paid Premium refund received or not received Additional premium paid New insurance escrow requirement paid Lender placed insurance premium paid

Summary of Information

Your New Monthly Mortgage
Payment Amount compared to your current monthly mortgage payment amount. Also, the new effective date of your new monthly payment.

Your New Escrow Amount we project paying for your taxes and/or insurance in the coming year, shown annually and monthly. The total of the second column is equal to your new monthly escrow amount.

Escrow Lowest Balance comparison of your escrow required lowest balance to the estimated balance you would have if no adjustments were made to your escrow account. This section indicates whether there is a surplus or shortage in your escrow account.

Projections for the Coming Year of activity in your escrow account used to determine whether a shortage or surplus exists.

Q: What is an escrow account and why do you maintain one for my loan?

A: We maintain an escrow account on your behalf to ensure that your annual expenses for real estate taxes and insurance are paid in full and in a timely manner. Every time you make a mortgage payment, a set amount of your payment is deposited into your escrow account. We use this amount to pay your real estate taxes, hazard insurance premiums, and if applicable, your flood insurance and/or mortgage insurance premiums.

Q: If I pay my escrow shortage, why will my monthly mortgage payment still go up?

A: An escrow shortage is the result of differences that occurred in the past - when the funds in your escrow account were less than what was required to cover the actual payments from your account. The escrow portion of your new monthly mortgage payment is based on projected activity for the coming year. Even if you pay your shortage, your payment can increase if your annual property tax or annual insurance premium increases.

Q: Why did I receive this Escrow Account Disclosure Statement?

A: At least once a year, we perform a review of your escrow account in order to determine if the escrow portion of your monthly mortgage payment is sufficient to cover the annual requirements for your real estate taxes, hazard insurance premiums, and if applicable, your flood insurance and/or mortgage insurance premiums. We are required under the Real Estate Settlement Procedures Act (RESPA) to disclose to you in an Escrow Account Disclosure Statement the results of this review and its effect on your monthly mortgage payment. Occasionally, we may provide you with an interim statement in order to maintain compliance with RESPA.

Q: What is hazard insurance?

A: Hazard insurance is a type of property insurance that provides coverage against specific perils, such as vandalism, fire, etc. It may also be referred to as homeowner's insurance.

Q: What is a required escrow account minimum balance and how is it calculated?

A: Under Federal law, we are allowed to maintain a minimum balance or cushion of funds in your escrow account. We use this cushion as a safeguard in the event that your real estate tax and/or insurance payments increase. Unless your mortgage contract or state law specifies a lower amount, your escrow account minimum balance is equal to no more than two months escrow payments for your real estate taxes and hazard insurance. This is also equal to 1/6 of your total projected payments for real estate taxes and hazard insurance from the account. *Mortgage insurance is not included in this calculation.*

Q: Why did my monthly mortgage payment change?

A: Increases and decreases to the escrow portion of your monthly mortgage payment are typically the result of changes in your real estate taxes and/or hazard insurance.

Hazard Insurance: Your premium may be different as a result of changes to the type or extent of your insurance coverage, or if your insurance company changed your insurance rate. We encourage you to contact your insurance company or local insurance agent for any questions regarding changes to your hazard insurance premiums.

Real Estate Taxes: Your real estate taxes may be different as a result of your property being reassessed or if the tax rate has changed. Unexpected tax bills for special assessments charged by your local tax authority will also impact the amount we collect for your real estate taxes. We encourage you to contact your local taxing authority for any questions regarding changes to your real estate taxes.

New Construction: Differences may occur with partially assessed real estate tax bills for new construction. Typically, the first tax bill for new property is only for the lot/land. We may have received a bill for the fully assessed value which includes the land and the house.

Initial Escrow Deposit: Escrow is sometimes estimated at loan closing because information may not be available at that time. If the amount collected for the set up of your escrow account was more or less than the actual bills received for real estate taxes and/or insurance premiums, this will cause your monthly mortgage payment to change.
